

CONTRIBUTION FORM

ALL CONTRIBUTIONS ARE FULLY DEDUCTIBLE

It is the privilege of the West Virginia Broadcasters Educational Foundation to support students and teachers across the state in the radio and television educational system.

Our goal is to build a sound general endowment for the future while at the same time spending a significant amount of contributions and earnings yearly bestowing grants. Each year the Foundation assist High Schools and Colleges who have programs to develop careers in the radio and television broadcast industry. The grants are generally awarded for equipment, studios, and training used by students and teachers actively engaged in school-based broadcasting curriculum.

We feel strongly that broadcast careers are cultivated before students get to college. Our efforts are reinforced by the appreciation and feedback from the students and teachers. Some have come a long way to being a viable program and the students have flourished. Without the grants ranging between \$1,000. to \$6,000. the classrooms would be sorely underequipped.

Will you make a contribution to make a difference in the future of young broadcasters in West Virginia? Challenge your coworkers, other stations and those whose believe in the power of education and our industry. Any amount is welcome.

PAY IT FORWARD AND MAKE YOUR DONATION TODAY!
