

West Virginia Broadcasters Association

Meteorologist

Jobs in Broadcasting ,United States

Job Description

Description

Gray Media:

Gray Media is a leading media company that owns and operates high-quality stations in 113 television markets that collectively reach 36 percent of US television households.

We constantly strive for excellence. Through upgrading to the latest technology and seeking new ways to stay on top in our markets, we focus on training and development of the best and brightest employees in the business.

About WTAP:

WTAP is THE main voice in the Mid-Ohio Valley. We may be among the smallest TV stations in America, but we are also one of the most dynamic. With state-of-the-art technology, a terrific on-air look, and a dynamic digital presence ... you'll be proud of the work you'll do here. And you'll grow quickly because there is so much opportunity! You'll get to explore whatever you want to do in the communications field, whether it's on-camera, behind-the-scenes, or in sales. The WTAP team is involved in the communities we cover. From covering high school sports, to participating in local events, to helping small businesses grow and thrive

through commercials and mobile products, WTAP does it all. And we do it all – together.

The Mid-Ohio Valley includes the communities of Parkersburg, WV and Marietta, OH and the 50-mile area surrounding them. It's the kind of place where you can walk down the street and say "hi" to people and they'll say "hi" right back at you! It's the kind of place where local news-people become like family to the viewers and on-line readers they serve and communicate with. There are wonderful parks, great hiking and biking areas, high-quality restaurants, and shopping – whether you like a mall or the uniqueness of small stores on main street. Our area is big on heritage and the many fairs and festival reflect that passion. Marietta College gives its hometown a New England feel. Ohio University and the community of Athens, Ohio, are nearby. The Ohio River is the common thread that runs through everything and the Blennerhassett State Park, located on an island of the same name very close to Parkersburg, is a historic and beautiful place to get away to on a summer day.

There's much to see and do within a couple of hours drive from our location in Western West Virginia and Southeastern Ohio. Whitewater rafting, snow skiing and so much more are available in the mountains of West Virginia. The locally situated Mid-Ohio Valley regional airport and airports in Charleston, West Virginia, and Akron, Columbus, and Cleveland, Ohio, give you access to anywhere you want to go. Wherever you may travel though,

Our area is proud of its history and heritage with roots in oil and industry which have helped shape our region into what it is today. WTAP's commitment to serve the Mid-Ohio Valley, the place that we call home, shows that it doesn't matter what the market size... we are here doing what really matters.

Job Summary/Description:

WTAP has an opening for a full-time Meteorologist for our First Alert Weather team. The right candidate will produce and present multiple weather segments in our newscasts. We're looking for a self-motivated candidate who is committed to quality and connecting with the viewers. A passion for both weather and live-in-the-field reporting is a must.

Duties/Responsibilities include, but are not limited to:

- Prepare graphics to support weather presentation.
- Conversational On-air presentation.
- Must be able to utilize social media during severe weather.
- Producing and presenting clear and concise weather casts,
- Developing content and graphics for on-air, web, and social media.
- Work with producers to determine relevant weather content in breaking and everyday situations.
- Candidate must bring professionalism, energy, confidence, and personality to our newscasts and our newsroom.
- Skills as an MMJ are a plus.

Qualifications/Requirements:

- Bachelor's degree in journalism, meteorology or related field required.
- Ability to be creative with graphic design and presentation.
- Strong on-air communication skills.
- Experience with WSI Max weather system is a plus.
